## Correction: Transfer Station News & Notes

**Note: Below is a correction to the May 12, 2015 notice where the MCMUA mistakenly announced the tipping fee would decrease to \$94.00/ton as opposed to the corrected \$94.50/ton. We apologize for this inconvenience.**

**Tipping Fees to Decrease as of June 1, 2015** - Please be advised that starting on June 1, 2015, the tipping fees charged for the disposal of solid waste types at the MCMUA transfer stations will decrease by \$1.06/ton. The current tipping fee of \$95.56/ton for the disposal of all waste types will be decreased to \$94.50/ton. Due to on-going litigation related to the award of the MCMUA's transfer station operations and disposal contract, the MCMUA maintained the 2015 tipping fee at the 2014 rate for the first half of 2015. With the conclusion and settlement of this litigation, the MCMUA is in a position to lower the tipping fees to \$94.50/ton for the second half of 2015. Additionally, the MCMUA anticipates keeping the \$94.50/ton tipping fee in place through the end of 2016. See the tipping fee chart below for details.
